As applicable, the Class Annual or Intermediate Survey is to be carried out in conjunction with the Load Line Annual Survey and Safty Construction Annual or Intermediate Survey (or Renewal Survey of Passenger Ship Safety Certificate).

Class maintenance is subject to compliance with the requirements of China Classification Society's (CCS's) Rules and the attention is drawn to that the following circumstances would result in the suspension or cancel of Class:

- 1. For all the ships classed with CCS, the class certificate will become invalid and the class will be automatically suspended in any one of the following cases:**
 - (1) When the special survey has not been completed within the period of time stipulated in the Rules and an extension is not granted by the Society, unless the vessel is under attendance for completion prior to resuming trading, by the due date;
 - (2) When the Annual Survey has not been completed within three (3) months of the due date of the annual survey, unless the vessel is under attendance for completion of the Annual Survey;
 - (3) When the Intermediate Survey has not been completed within three (3) months of the due date of the third annual survey in each 5-year special survey cycle, unless the vessel is under attendance for completion of the Intermediate Survey;
 - (4) when it is confirmed that the Surveyor does attend on board ship before the survey is overdue but the ship is put into service before such overdue survey is satisfactorily completed.
- 2. For all the ships classed with CCS, the Society may suspend the class of a ship if any one of the following cases is confirmed:**
 - (1) When the ship is operating beyond the service limitation defined by its class notation and other additional conditions as approved;
 - (2) When the ship is failed to submit any damage, defect, breakdown or grounding, which could invalidate the conditions for which a class has been assigned, for examination upon the first opportunity or, if proposed repairs have not been submitted to CCS and agreed upon prior to commencement;
- 3. For all the ships classed with this society, the class certificate may become invalid and the class may be suspended in any one of the following cases, unless the vessel is under attendance for completion of the surveys, by the due date:**
 - (1) When conditions of class or outstanding recommendations are not deleted by the due date and no extension has been granted;
 - (2) When Continuous Survey items which are due or overdue at the time of Annual Survey are not completed and no extension has been granted;
 - (3) When the other surveys required for maintenance of class, other than Annual, Intermediate or Special Surveys, are not carried out by the due date and no extension has been granted;
 - (4) When repairs to any damage, defect, breakdown or grounding has not been completed as recommended and submitted for survey.
 - (5) failure to permit the unscheduled surveys referred to in 2.9.1.4 of Chapter 2, PART ONE of the CCS Rules.
- 4. For all the ships classed with CCS, the Society may cancel the class of a ship in any one of the following cases:**
 - (1) At the request of the Owner;
 - (2) If the circumstances leading to suspension of class are not corrected within the time specified;
 - (3) A vessel's class is withdrawn immediately when a vessel proceeds to sea without having completed recommendations or conditions of class which were required to be dealt with before leaving port.
 - (4) When class has been suspended for a period of six (6) months due to overdue Annual, Intermediate, Special or other surveys required for maintenance of class; or overdue outstanding recommendations / conditions of class. A longer suspension period may be granted for vessels which are either laid up, awaiting disposition of a casualty or under attendance for reinstatement.;
 - (5) Where hull, equipment or machinery (including electrical installations) is so badly damaged or in other conditions (e.g. sinking, scrapping, etc.) that continuing operation of the ship is confirmed as not possible;
 - (6) When the payment of survey fees is not made in time;
 - (7) Where a ship has been detained following a Port State Control inspection on two occasions in one year or three occasions in two years, with serious deficiencies found, then the class will also be liable to be canceled, at the discretion of CCS, and a corresponding note will be given in the Register of Ships.
- 5. If, due to circumstances reasonably beyond the Owner's or the Society's control (limited to such cases as: damage to the ship; unforeseen inability of the Society to attend the ship due to the governmental restrictions on right of access or movement of personnel; unforeseeable delays in port or inability to discharge cargo due to unusually lengthy periods of severe weather, strikes, or civil strife; acts of war, or other cases of force majeure) the vessel is not in a port where the overdue surveys can be completed at the expiry of the periods allowed, the Society may allow the vessel to sail, in class, directly to an agreed discharge port, and if necessary, hence, in ballast, to an agreed port at which the survey will be completed.**
- 6. If the survey requirements related to maintenance of special notations are not carried out as required, the suspension or withdrawal may be limited to those special notations only.**
- 7. Withdrawal of the class of a ship will be indicated in the Register of Ships or its supplements or on the Society's website correspondingly.**
- 8. When suspension or withdrawal of class of a ship becomes effective, the Society will send written notification to the Owner and the Administration of the flag State, and make an announcement on CCS website available to the underwriters and other interested parties concerned.**
- 9. For new ships constructed on or after 1 July 1998 under SOLAS Reg. II-1/3-1, the notification will state that certain statutory certificates are implicitly invalidated by the suspension or withdrawal of class.**

China Classification Society

Form CLS(E)

No. FS19SSS00027

Classification Certificate

This Certificate is issued to: ORIENTAL PEARL VIII

Class No. 16R0141

IMO Number 9759202

This certificate is valid until December 7, 2021 subject to continued compliance with the requirements of the Society's Rules.

Issued at Gwangyang, Korea

Issued on August 16, 2019

(Liu Bin)

Designated Surveyor to
China Classification Society

Notes: 1. To establish the classification status or the main characteristic particulars and details of the ship, the Register of Ships uploaded on the Class official website can be consulted. Access to Class official website is available via <http://www.ccs.org.cn>
Declarations: 1. This Certificate is issued under the applicable Classification Rules of this Society, and solely reflects the condition of the vessel at the time of the survey. Nothing contained in this Certificate shall be deemed to relieve any designer, builder, owner, seller, supplier, repairer, operator or other entity of any obligation express or implied. The general terms and conditions in the applicable Rules of this Society govern this Certificate. Unless otherwise agreed with this Society, any dispute arising from or in connection with the services provided by this Society shall be submitted to China Maritime Arbitration Commission for arbitration which shall be conducted in accordance with the commission's arbitration rules in effect at the time of applying for arbitration. The arbitral award is final and binding upon both parties. The laws of the People's Republic of China apply.
2. This certificate and relevant information cannot be used in connection with the sale of ship without permission of the Society.
